### **CAL Ranked top 5% on corporate governance evaluation**

On the fourth corporate governance evaluation by the Taiwan Stock Exchange Corporation (TWSE), China Airlines ranked among the top 5% of 861 listed companies under evaluation. This means that China Airlines has achieved the highest corporate governance standards.

China Airlines President Hsieh, Su-Chien says that as part of its corporate governance efforts, China Airlines has established different communications platforms for stakeholders. For example, a special area has been set up on the China Airlines' official website for stakeholders to provide opinions and feedback. This helps to ensure proper response to stakeholder demands and to protect their rights and interests. China Airlines is devoted to excellence in corporate governance and to continuing to work hard to provide long-term value for its employees, shareholders, customers, and partners, as well as society as a whole.
